## The Dansant at Maxim's

Another novelty has been arranged by the management of Lake's popular cafe. Every Wednesday and Saturday afternoon the "the Dansant" will be featured from 3:30 to 6 o'clock.

An opportunity will be afforded for ladies and their escorts to dance, but dancing will be by card only. Cards can be secured only from the cafe management.

Misses Pony and Leddy, popular San Francisco society dancers, will illustrate the latest dance steps and give instruction to those who desire in the Argentine tango, the tango and the hesitation waltz.

WILLE, Manager.

## GREEN RIVER WANTS AN ELECTRIC PLANT

State Engineer and Chairman Candland Will Recommend It to the Board.

The wish of the town of Green River to construct an electric power plant to furnish light and power for the town will be aided by a report which W. D. Beers, state engineer, and W. D. Candland, chairman of the state land board, will make to the next meeting of the state land board, recommending favorable consideration of the town's request. Mr. Beers and Mr. Candland returned yesterday from Green River, where they made a trip of inspection to investigate the power proposition, and both are agreed that the plant will be a good thing for the town and will in no wise injure the district.

Before the town can erect a power plant, taking power from the Green river mill race, six miles north of the town, permission of the state land board must be had, as the state has made a loan of \$50,000 to the Green river irrigation district of which Green River is the principal town. The next meeting of the board will be held April 7.

The power plant and transmission line of six miles will cost, it has been estimated, about \$10,000. The power generated will be used for lights and pumping. Beers says the town is a growing one of several hundred persons and that the power plant will undoubtedly be a great help to the community.

COTTON FUTURES BILL PASSED BY THE SENATE

WASHINGTON, March 27.—The senate today passed without division a compromise bill to regulate trading in cotton futures.

The bill was composed of portions of measures introduced by Senators Smith of South Carolina, Smith of Georgia and Ransdell of Louisiana.

It would prohibit sending through the mails or by telegraph information furthering the making or enforcement of contracts which do not specify that delivery is to be made on a basic grade, with the option of delivering other governmental grades, the difference between which would be fixed by actual trading in spot cotton and not arbitrarily as on exchanges now.

The bill includes a feature by Senator Smith of Georgia to legalize pooling of cotton to put up the price.
